IMMIGRANT ANCESTORS

IMMIGRANT ANCESTORS

Following is a list of about 1,800 of the Immigrant Ancestors whose names appear so frequently in the published lineage records of this work that repetition of the identical data would be burdensome, and superfluous. Hence, where the following names appear in the lineage records, the cross-reference (qv) is employed to refer the reader to this particular section of this volume where all the authentic data available, pertaining to these names, may be found.

It should be understood, however, that this is not a list of all the Immigrant Ancestors mentioned in the lineage records in this work. The largest number by far do not appear in this list because their names have appeared only once, or only occasionally, and the data pertaining to them will be found in those records.

For the most complete list of immigrants to all the early settlements in America the reader is referred to The Magazine of American Genealogy, which includes as one of its sections an alphabetical list entitled "Immigrants to America Before 1750."

ALPHABETICAL INDEX

ALPHABETICAL INDEX OF NAMES IN VOLUME IV

Since the "heart" of any genealogical work is its alphabetical index of names, and since one of the chief purposes of this work is to index America genealogically, the following alphabetical index of names in this volume refers also to the surnames which appear frequently in Volumes I, II and III of this work. But many additional thousands of surnames, which appear in the earlier volumes only once or only occasionally, are not included in this index; therefore, if the name sought for is not listed in this index it may be found in the earlier volumes, which should also be consulted.

The name of every man mentioned in the lineages in the preceding pages is listed in alphabetical order in this index. Women have been omitted from the index because their inclusion would double the number of names without any appreciable advantage, because it is only in rare instances that a genealogical investigator does not know the name of the father or husband of the woman whose name he is seeking, and the names of the father and husband are listed in the index when known.

However, women who are the subjects of the lineage records are listed in the index in **bold face** type under their maiden names or, if married, under their married names. The husbands and fathers of these women are also listed in proper alphabetical order.

Names in **bold face** *type indicate the subjects of preceding records, and numbers in* **bold face** *type indicate the page on which the record appears.*

The **bold face** type numbers following the names of immigrant ancestors in the index, refer to the pages on which their biographical records appear (pages 727-777); other page numbers refer to lineage records.

THE INSTITUTE OF AMERICAN GENEALOGY

The National Clearing House for Genealogical Information

(NOT FOR PROFIT)

The Institute of American Genealogy is designed to be the *National Clearing House for Genealogical Information.*

It was founded on the principle that knowledge of one's ancestry is a birthright and that genealogical data should be made accessible to all.

It has only one purpose, and that is to render complete genealogical service, to afford every American all available facilities for finding lineages with the least expenditure of time and money.

It is for those who know little about their ancestors and wish to trace them, and for those who know much about their ancestry and wish to find more.

It is to aid in bringing lineages down to date and then to keep them up to date by adding each succeeding generation.

It is for those who know nothing about their ancestors but wish to begin a record of the present generations upon which to build an American lineage for posterity.

Its service affords its members, resident anywhere, practically the combined facilities of the best genealogical libraries in the country.

The Institute aims to co-ordinate the genealogical research work of the various hereditary, genealogical, family, and historical associations which are seriously endeavoring to render service, by affording each one the facilities of its Master Indexes, and otherwise in the same manner that a parent organization co-ordinates and co-operates with its state societies and local chapters.

It is gathering genealogical data, especially unpublished, privately owned manuscripts and charts, and indexing these, as well as unindexed books, whenever these are made available.

These constantly cumulative indexes, together with those received from its affiliated societies and libraries, from its members and others, comprise the Master Indexes and constitute THE NATIONAL CLEARING HOUSE FOR GENEALOGICAL INFORMATION.

It is the largest genealogical organization in point of membership, and the most active in fostering genealogical interest, research, compilation and publication.

It is not expected to be a commercial, money-making enterprise, but it is expected to be self-sustaining through revenue derived from membership fees and for services rendered.

The Institute invites the support, contributions of family data, and memberships, of those Americans interested in writing and preserving for posterity the records of American Genealogy. Membership (Life, $100; Annual, $10), includes subscription to The Magazine of American Genealogy.

THE MAGAZINE OF AMERICAN GENEALOGY

THE MAGAZINE OF AMERICAN GENEALOGY is the published report of the contents of the Master Indexes of **The National Clearing House for Genealogical Information.** It is a genealogical index, or series of indexes, covering the principal phases of genealogy.

Each issue contains a systematically arranged series of separate and distinct sections dealing with the several subjects embraced by genealogy. The sections and subjects are:

Section I, Institute notes and articles.

Section II, Derivation of Surnames. An alphabetical list of surnames with a synopsis of their classification, meaning and derivation, the root of the word, and the first known record of the name.

Section III, Heraldry. An alphabetical list of the Coats of Arms, illustrated and blazoned, as found applied to American Genealogy. Numbers 1 and 2 of The Magazine contain a verbatim reprint of Sir Bernard Burke's history of heraldry, glossary of armory and dictionary of terms used in heraldry. The illustrations and blazonry of Coats of Arms begin alphabetically in Number 3.

Section IV, Immigrants to America before 1750. An alphabetical list of immigrants to all the colonies before 1750, when and where they settled, biographies, marriages and children.

Section V, Soldiers and Sailors in the American Revolution. The lists contained in 130 volumes of federal, colonial, state and other records, have been combined in one alphabetical index of all the participants from the Original Thirteen Colonies, with a record of their services.

Section VI, Index to American Lineages. This Master Index will afford the most direct clues for American lineages ever compiled, because it will eventually include the lineages contained in all the printed family genealogies, manuscripts, charts, questionnaires, and the other sources available to The Institute. This is the most extensive genealogical index ever attempted. It will include lineages in virtually EVERY old American family name.

Section VII, Bibliography of American Genealogy. An alphabetical list of American and English genealogies, manuscripts, charts and kindred works; includes about 14,000 titles.

Section VIII, Notes and Queries. This section is open to members of The Institute without charge.

The text matter in each section and in each issue is in alphabetical order. Each of the eight sections is page numbered independently and consecutively, so that at the end of the alphabet the same sections in the series of magazines may be brought together into binders to form alphabetically arranged and consecutively paged volumes.

When the alphabet has been completed, this series of magazines will constitute the most comprehensive GENEALOGICAL SOURCE LIBRARY ever devised. It will probably comprise over 70 volumes of 500 pages each.

The Magazine of American Genealogy may be found in most public and institutional libraries and SHOULD BE CONSULTED FIRST FOR ALL GENEALOGICAL RESEARCH, because in its alphabetical order EVERY American surname will be treated in one or more of the sections.

Number 1 is the basic number of the series; it contains the sectional title pages, explanatory prefaces, book references and abbreviations, which are the "keys" to the system employed in this work and to the data in all succeeding numbers; these will be of aid to anyone interested in genealogy.

Number 1 was published August, 1929, beginning the alphabet with Aa. The Magazine is issued monthly and will continue to the end of the alphabet.

Reservations by non-members of The Institute, for single numbers or several different numbers of The Magazine containing data on particular family names or certain portions of the alphabet, must be made in advance of publication. Price $1.50 per copy, with the reservation. Back numbers are also available.

Address reservations for certain numbers of The Magazine to:
